Respiratory Program

Tracheostomy Tube

Disposal inner cannula, adult, flexible, tapered cuff, bevelled tip, clear flange, TaperGuard, colour coded, non latex, non sterile, BPA and DEHP free, size 9.0 mm I.D., 12.7 mm O.D, 1/box. Covidien #9CN90H
(A) 064506 Each

Tracheostomy Tube

Uncuffed, pediatric, soft with contoured neck flange, size 4.0 (6.0 mm O.D.), (41.0 mm length), 6/box (Sold by each). Bivona #60P040
061431 Each

Uncuffed, pediatric, soft with contoured neck flange, flexible and inert, silicone material for sensitive stomal and airway tissues, silicone shaft minimizes risk of kinking, size 4.5 (6.7 mm O.D.), 42.0 mm length, 6/box (Sold by each) Bivona #60P045
063477 Each

 Latex-free, uncuffed, pediatric, soft flange material for greater comfort and fit for pediatric patients, smooth rounded-tip obturator facilitates insertion, size 5.5 (5.5 mm I.D., 7.7 mm O.D.), 46 mm length, 1/box. Covidien (Shiley) #5.5 PED
063587 Each

Tracheostomy Connector

Uncuffed, blue line, without 15 mm connector, size 6. #Portex #100-505-060
066609 Each

Tracheostomy Connector

Reducer, ribbed, tapered, $\frac{3}{8}$ " to $\frac{3}{16}$ ". Bulk 10/box (Sold by each). P350A
(B) 027847 Each

Tracheostomy Tube Holder

Velcro, adult. Bulk 100/case (Sold by each). Smith Medical #520000
(C) 057775 Each

Tracheostomy Tube Holder

Velcro, pediatric, neck strap made of soft, strong lightweight fabric covered foam, 100/case (Sold by each). Smith Medical #520001
060541 Each

Tracheostomy Tube Tie

Foam, one-piece collar helps secure tube, size 18 $\frac{1}{2}$ " L x 1" W (47 cm x 3 cm), 12/box. Posey #8197M
(D) 064696 Each

Respiratory Program

Thermal Humidifying Filter

5 g, Thermovent T, 15 mm, I.D., 50/box.
Smith Medical #570016

(A) 038956 Box

Tracheostomy Sponge

Drainage, approximately 1/2" cut to centre, 4" x 4", 12 ply. **Bulk** 600/case (Sold by each) sterile. *Dumex* #082910

(B) 057736 Each

 Avant Gauze Drain Sponge, 4" x 4" (10 cm x 10 cm), 6 ply, sterile. **Bulk** 2/pkg, 25 pkgs/box, 300/case (Sold by package). *Dumex* #84916

(C) 028373 Package

Tegaderm I.V. Securement Dressing

Advanced I.V. and central line catheter securement, acts as barrier to water, virus and bacteria reducing the risk of infection. Two innovative adhesives provide excellent hold even under moist skin conditions, firmer patterned adhesive secures and protects catheter, full surface adhesive along stabilization border, gentle removal, 3 1/2" x 4 1/2" (8.5 cm x 11.5 cm), 50/box, 4 boxes/case. *3M* #1685

(D) 062684 Box

Tegaderm I.V. Transparent Film Dressing

Transparent I.V. dressing reinforced with a soft cloth fabric border designed to seal around the insertion site and minimize catheter movement, provides a waterproof sterile barrier to external contaminants including liquids, bacteria and viruses, transparent film provides a viral barrier while the dressing remains intact without leakage, transparency allows monitoring of I.V. sites without the need to remove the dressing, 3 1/2" x 4 1/2" (8.5 cm x 11.5 cm), 50/box, 4 boxes/case. *3M* #1655

(E) 062806 Box

Saline Solution

0.9%, 5 ml vial, inhalation USP, 100/box.
Hospira #120059

(F) 044025 Box

Suction Catheters and Accessories

Suction Catheter

Whistle tip with control port adapter, single use, sterile, with cm graduations.

Bulk 50/box (Sold by each).

6 French, pediatric. *Amsino #AS361*

064007 Each

8 French, 22" long. *Amsino #AS362*

057683 Each

10 French, 22" long. *Amsino #AS363*

057684 Each

12 French, 22" long. *Amsino #AS364*

057685 Each

14 French, 16" long, 100/box. *Alligience #PT260C*

048034 Each

14 French, 22" long. *Amsino #AS365*

(A) 057686 Each

Argyle Rigid Yankauer Bulbous Tip

Suction tube, shatter resistant, smooth tips and eyes, one piece construction with tip troll vent for better suction control, 50/ case (Sold by each). *Kendall #8888505024*

056772 Each

For additional extensions see page 144

Oral and Nasal Suction

Oral and Nasal Suction

Designed for single handed suctioning, thumb port for intermittent suctioning, 5 mm diameter, soft flexible tip similar to a bulb syringe, 3 mm diameter tip opening not made with natural rubber latex or plasticiser dehp, length 120 mm, 50/box. *Neotech #N205*

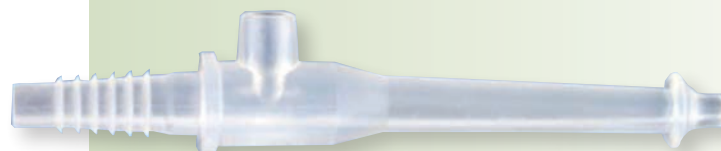

(B) 066462 Box

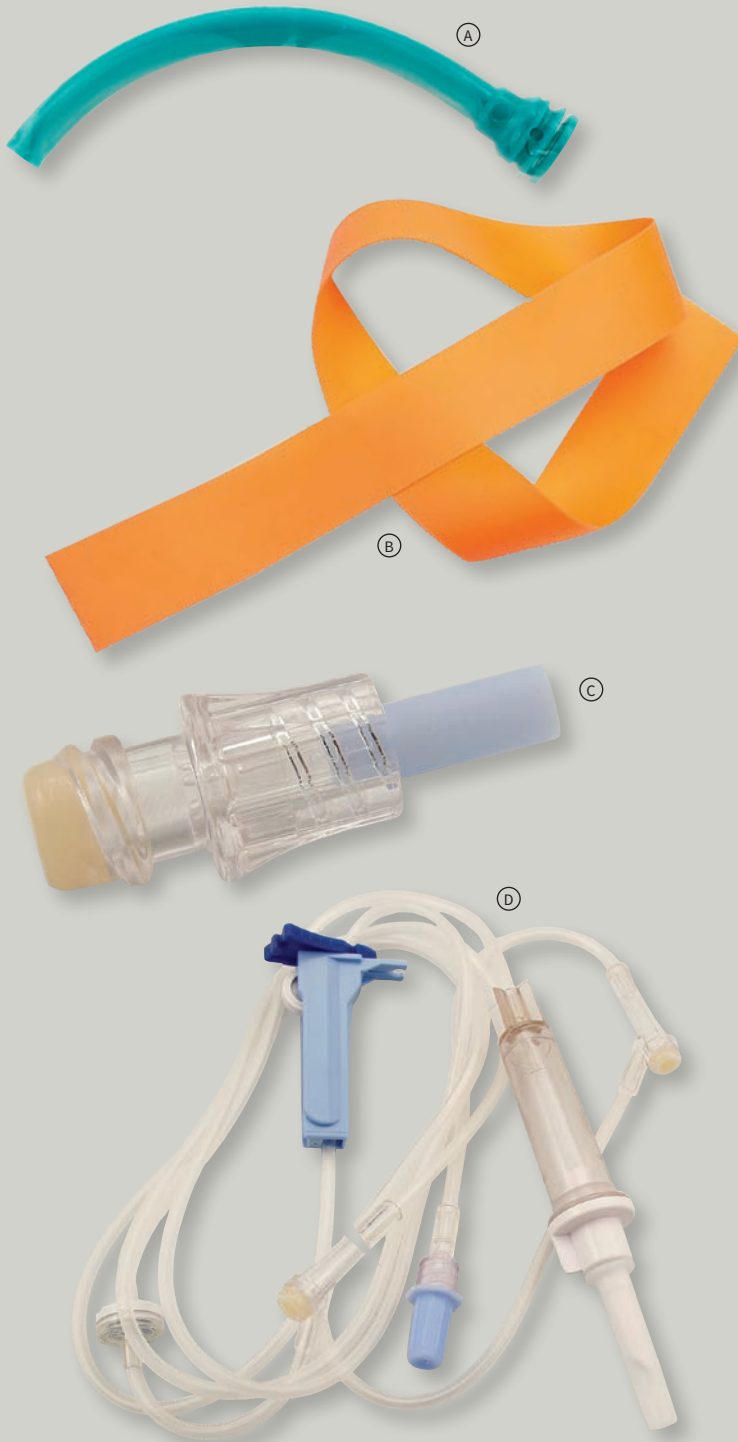

Speaking Valve

Speaking Valve

Universal, adult size, with oxygen port, lightweight material and construction to reduce additional pressure on stoma site, connector adapts to tracheostomy tubes, hinged cap, airflow resistance at 50 L/MN, latex-free, non-sterile, single patient use, 1/box. *Covidien #SSVO*

(C) 064854 Box

Line Care

BD Blunt Plastic Cannula for Interlink System

15 gauge, vial access cannula, 100/box. 303367

062258 Box

17 gauge x 3 ml syringe, 100/box. 303346

062878 Box

17 gauge x 10 ml syringe, 100/box. 303348

062879 Box

17 gauge, 100/box. 303345

044201 Box

Flex DIC Trach Tubes

Inner cannula, constructed of siliconized polyvinyl chloride, providing a softer and more pliable tube to reduce the risk of tracheal trauma, for 7 mm ID tracheotomy tube, green, disposable, 20/box. *Sims Portex #526070*

(A) 041941 Box

Introcan Safety Catheter

FEP IV 18 gauge x 1¼", sterile, single use IV catheter for irrigation, used with 30cc syringes, 105 ml/per minute, 50/box.

Braun Medical Inc #4254562-02

059133 Box

Tourniquet

Latex-free, 1" x 18". *BD367209*

(B) 028793 Each

*For additional
tourniquets

Interlink System

Interlink Injection Site

Needleless, male Luer lock adapter, non-DEHP, non-PVC, sterile, 200/box, 4 boxes/case. *Baxter (Interlink) #2N3379*

(C) 062902 Each

Solution Sets

Continu-Flo Solution Set, male Luer lock adapter, 2 injection sites, approximate length 8.5", 48/case, *Baxter (Interlink) #JC6519*

(D) 062903 Each

Interlink System

T-Connector Extension Set

With Interlink T-Connector injection site, rotating male Luer lock adapter, non-DEHP, approximate volume 0.55 ml, approximate length 6½", sterile peel pouch, 200/case. *Baxter (Interlink)* #2N3328

063102 Each

With Interlink T-Connector injection site, with 0.22 micron air-eliminating high pressure pediatric filter, rotating Luer lock adapter, 6.3" long, non-DEHP, sterile peel pouch, 200/case. *Baxter (Microbore)* #2N3333

062788 Each

Tracheostomy Cannula

Single inner, disposable, soft and flexible, smooth, rounded tip obturator facilitates insertion, convectional beveled BPA and DEHP free, latex-free, non sterile, 10/box. *Covidien*

5.5 mm x 62 mm. #41C6545065

064694 Each

8.0mm x 79 mm. #91C9045065

(A) 064505 Each

Inner Cannula

Siliconized polyvinyl chloride, flexible, disposable, for 6.0 mm I.D. tracheotomy tube, 20/box.

045065 Box

Tracheostomy Tube

Flexible, cuffless disposable inner cannula, bevelled clear flange, BPA and DEHP free, non latex, non-sterile, size 6.5 mm I.D., 9.4 mm O.D., 62 mm long, 1/box. *Covidien* #4UN65H

064695 Each

Clearlink System

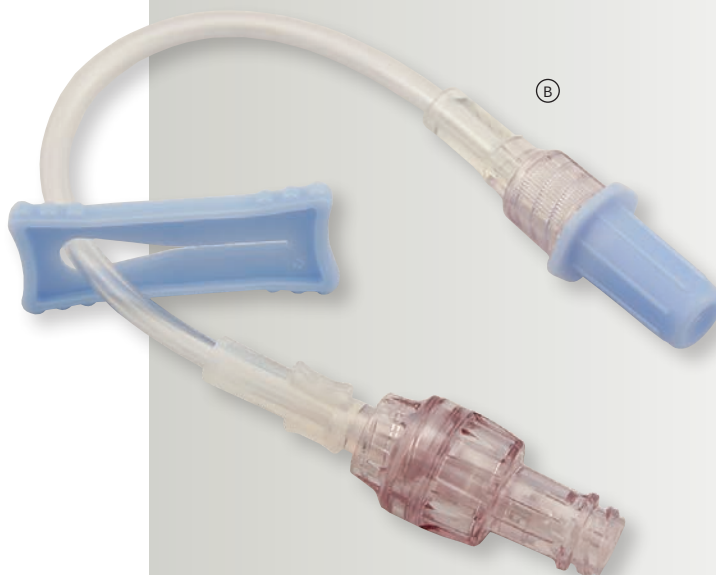

Catheter Extension Sets

Standard Bore, needle-free I.V. connector with neutral fluid displacement, male Luer lock adapter with retractable collar, approximate length 7.6", approximate volume 0.79 ml, sterile, non-DEHP, nonpyrogenic, 200/case. *Baxter (OneLink)* #7N8378

(B) 063132 Each

Y-type microbore catheter extension set, needle-free I.V. connector, neutral fluid displacement, male Luer lock adapter with retractable collar, 6.3" long, sterile, nonpyrogenic, non-DEHP, 200/case. *Baxter (OneLink)* #7N8371

063151 Each

Clearlink System

Connector

Needle-free I.V. connector with neutral fluid displacement, power injectable (325 psi / 2241 kPa), approximate volume 0.08 ml, sterile, non-pyrogenic, 200/case. *Baxter (OneLink) #7N8399*

(A) 063133 Each

Secondary Medication Set

Use with Clearlink system, hanger for primary solution container, male Luer lock adapter, approximate 37" length, approximate 10 drops/ml, contains DEHP, fluid path is sterile, nonpyrogenic, 48/case. #2C7461

(B) 063134 Each

Solution Sets

Continu-Flo solution set, 2 Clearlink Luer activated valves, male Luer lock adapter, 112" length, approximate volume 10 drops/ml, fluid path is sterile, contains DEHP, 48/case. *Baxter (Clearlink) #2C8519*

063135 Each

Buretrol solution set, 150 ml Clearlink Burette (Drip Chamber Filter Valve), 2 Clearlink Y-sites, Luer lock adapter with retractable collar, approximate length 105", approximately 60 drops/ml, non-DEHP, fluid path sterile, nonpyrogenic, 48/case. *Baxter (Clearlink Buretrol) #2H8864*

(C) 063137 Each

Extension Set (Non-specific System)

Macrobore, with female adapter, clave Y-site, option lok make adapter, Dial-A-Flo flow controller, 18" (45.72 cm), 2.3 ml, priming capacity, non-DEHP, 48/case. *Hospira #20667-001*

063977 Each

0.22 micron downstream high pressure extended life filter, male Luer lock adapter, polyethylene lined tubing, 6" length, approximate volume 3.3 ml, fluid path is non-DEHP, sterile, 48/case. *Baxter #1C8363*

062934 Each

Cap

Dual Luer lock, male/female port protector, no open fluid path, sterile, non-PVC, non-DEHP, 504/case. *Baxter #2C6250*

(D) 063334 Each

Safety I.V. Catheters

Catheters

Safety features reduce accidental needlesticks, FEP polymer and radiopaque polyurethane, straight hub.
